

# **Patty's Plants**

## **Calathea**

**Calatheas are from eastern Brazil. They are a great colorful foliage plant for the home or office.**

**Grow Calatheas in medium to bright curtain filtered light. They can tolerate a little lower light too. An east or west window is perfect. Too much light will burn their leaves.**

**Let this plant dry slightly between watering. They do like to be watered with warm water.**

**Calatheas love humidity so use a water filled tray with pebbles to set the plant on.**

**They can take temps between 60-85\*.**
