## Passion Vine

**Passion Vine is an unbelievable flowering tropical vine. The flowers are large and look like they are made of wax. There is a wonderful story of what the passion flower symbolizes.**

**Go to [www.pattysplants.com](http://www.pattysplants.com) to read about it.**

**This plant makes a great patio plant for the summer in our northern climate. It will bloom from May to September and possible even longer.**

**Keep the passion vine moist. Fertilize throughout the Summer.**

**They like a heavier soil with lime added. You can make it heavier with worm casting which will get it some natural nutrients.**

**You will need to prune it unless you have the space to let it grow.**
