

Patty's Plants

Pothos Epipremnum

Pothos come in a few color varieties: Jade, Golden, Marble Queen and even lime green. They are all perfect for a low light home or office. You can find these in everything from hanging baskets to totem poles.

They are native to southeast Asia.

Place them in a north or east window.

Thoroughly water Pothos, then let them dry slightly between watering.

This is a very easy houseplant to grow and can take temperatures between 65-85*.
